🎯 About :

Self-taught Front-End Web Developer passionate about creating beautiful and performant websites, aiming to create the best user experience possible! Everything I make is beautiful. I use Arch btw.

💼 Experience :

React Developer - Jamesmccallumconsulting (Freelance)   2022 Oct - 2023 Jan

- Converted UI figma designs into responsive React + Tailwindcss components.
- Created responsive landing pages and a github profile dashboard using github search api.

Frontend Developer - Ideanomic   2023 April - 2025 May

- Responsible for creating and maintaining company's website.
- Converted UI figma designs into real responsive React + Unocss components.
- Used Git for version control system for managing various branches for deployment & integrated with vercel deployments.
- Used React and Nextjs to build a fully functional H.R platform, integrated API into the frontend to show user data and maintained four various deployments..

🎓 Education :

Sarada College   2019 – 2022   Chaitanya College   2017 – 2019

BHMCT (discontinued)   Intermediate education
